

*In the Specification*

Please replace paragraph [0022] in the Brief Description of the Drawings with the following new paragraph [0022].

[0022] Fig. 7 shows an exemplary embodiment of an aquatic toy with the frame member removed such that the aquatic toy may be folded or collapsed according to this invention, and Fig. 8 illustrates the embodiment of Figure 1 having multiple frame pockets and multiple frame segments.

Please replace the heading “Detailed Description of the Preferred Embodiment” with the heading:

“Detailed Description”

Please replace paragraph [0032] in the Detailed Description of the Preferred Embodiment (now Detailed Description) of the specification with the following new paragraph [0032].

[0032] At least one frame pocket 112 is formed substantially around a perimeter of the hollow opening 114, such that a frame member 120 may be at least partially held or contained within the frame pocket 112. In various ~~exemplary~~ embodiments, ~~the~~ frame pocket 112' is comprised of multiple frame pockets ~~(not shown)~~ 113 (see Figure 8), which are formed substantially around a perimeter of the hollow opening 114. In these ~~exemplary~~ embodiments, ~~the~~ frame member 120' is comprised of multiple corresponding frame member segments ~~(not shown)~~ 121 (see Figure 8), each of which may be at least partially held or contained within at least one of the multiple frame pockets.
